## Skills and Experience related to:

- Project management, product life cycle, and information security.
- Exploiting SQLi, XSS, and cookie tampering vulnerabilities in web applications with manual testing, Burp Suite, and SQLmap.
- Configuring and hardening Linux and Windows servers/desktops in both bare metal and virtual environments (VMWare ESX, VirtualBox).
- C, C++, Python, and Java programming.
- Extensive web development knowledge; PHP, MySQL, CSS, HTML, and Javascript.
- Nine years customer service; face-to-face and digital correspondence.
- Quality assurance testing and analysis.
- UX Skills: Wireframe design prototyping, interviewing, specifications, and strategy.
- Backend data structure implementations and algorithm design.
- Market research and competitive analysis.
- Methodologies: Agile Development, Scrum, UML Modeling, Continuous-integration, and Waterfall.

## Professional Experience:

### UNIVERSITY OF OREGON TECH DESK - Tech Desk Consultant 2 (2014 - Current)

- Provides real time technical support for current students, faculty, and staff through a variety of contact points including walk-ins, incoming calls, email, and web requests. Acts as second level support, responsible for technically difficult end-user requests, hardware/software specific items, and the coordination of resources to resolve customer issues, ensuring appropriate customer services levels are met. Contributes to the completion of specific programs and projects, including executing training for Technology Service Desk analysts on specific technology issues; creating and maintaining training documentation.

### DOWNTOWN ATHLETIC CLUB - Manager / Banquet Server (2009 - 2013)

- Began employment as a locker room attendant. After a few months, took on a role in food & beverage; beginning with busing, dishwashing, and prep-cooking. Within a few weeks, was promoted to a banquet server and ended the duration of my employment as a club manager-on-duty where I assisted with club operations and membership sales as well as employee training and supervision.

## Extracurriculars:

### UNIVERSITY OF OREGON SECURITY CLUB - Operations Manager / Participant (2013 - 2015)

- Worked with the president (of sec club) and faculty sponsors to coordinate with industry professionals. Most of my research was based on red teaming and web application penetration testing. Topics of sec club covered include reverse engineering, ELF binary exploitation, network penetration testing, x86 assembly translation, and web application exploitation.

### LANE COMMUNITY COLLEGE - Student Assistant Men's Basketball Coach (2012 - 2013)

- One on one instructional coaching and mentoring with students from all across the United States. Designed drills, participated in team-building exercises, and overall performance training. Educated players on proper nutritional diets to maximize performance.

## Education:

### UNIVERSITY OF OREGON - Eugene, OR

- Computer science major with an emphasis on information security and software development.
- Graduation June 2015
